

Baggie Books

A simple and fun way to create books with your children.

- 1 Gather a 6-10 (depending on how many pages you would like in your book) of lunch size zip lock baggies, and bias tape, from the fabric store or a stapler and duct tape.
- 2 If using bias tape, cover the bottom edge of the group of baggies and sew them together leaving the zip end open or staple together and cover with duct tape.
- 3 Once you have your book together collect favorite drawing, stickers or pictures from magazines of favorite things to put into your book. These items can be changed with the interest of your child.
